The following revision to the Baccalaureate Degree Requirements policy was approved by the Faculty Council on March 14, 2019. Please refer to the revised language in red. This is applicable for all undergraduate students effective Fall 2019.

**GRADE POINT AVERAGES**

To graduate, a student must be in good academic standing and have earned a grade point average of at least 2.0 and a grade point average of at least 2.0 in the major and in any minor. Some programs require a higher grade point average. The major/minor grade point average is calculated using only courses which satisfy the major/minor requirements. Courses must have been successfully completed and credit earned (subject to the University’s repeat policy). Specific requirements for degrees and programs are presented under the college and departmental sections of the Undergraduate Catalog.

Updates will be made to DegreeWorks and completed prior to the start of the Fall 2019 term. The Office of the Registrar will work with academic departments as necessary for Spring and Summer 2019 graduation clearance.

**FORUM FOLLOW-UP: A FEW QUESTIONS ASKED AFTER THE FEBRUARY REGISTRAR FORUMS.**

**UNC Online: Who owns UNC Online? Have there been any changes in the administration of UNC Online? What are the long term plans regarding UNC Online?**

UNC Online is a UNC System Office initiative that is relatively automated and free for students to add additional coursework for maintaining progress towards degree. Each campus determines which fully online courses are offered from their campus and when students from other campuses can register (UNC Charlotte waits one month after our registration opens). There have been routine updates, the latest of which was just performed about two weeks ago, but the basic functionality remains unchanged. Long term, the discussions have been centering around transitivity* articulations (i.e., Math 123 at institution A = Math 132 at institution B and Math 132 at institution B = Math 122 at institution C, then Math 123 at institution A should equal Math 122 at institution C). This is also leading to conversation around streamlining military training credits. These conversations are still ongoing. As we learn more, we will certainly share.

*‘Transitivity of Equality’ = Math term that hopefully I’ve (Jon) used correctly.

**Degree Sub Waivers/Form: Can we review the process of submitting them so that we can best support that team & your office? Also, is there a possibility of moving this process completely online as well?**

We addressed this question during the forums and should have been included in the notes provided following the forums. But to respond to this question, yes.....we are interested in streamlining this process, receiving these earlier in the student’s career, and moving these online. If you did not receive the notes from the forums, please let Jill Gosnell (Jgosnell@uncc.edu) know.

**MISSION AND VISION**

At our recent Office Advance (aka retreat), we spent some time discussing and updating our mission statement and creating our first vision statement. We wanted to share with you.

**Vision Statement** - Our vision is to provide exceptional tools, resources, and customer service to empower the campus community in pursuit of academic excellence.

**Mission Statement** - The Office of the Registrar shall maintain and safeguard the integrity, accuracy, and privacy of the official academic records for all students. In addition, we ensure compliance with all federal, state, and University regulations and policies. By working as a cohesive team within the Office and the Division of Enrollment Management, we strive to provide the highest level of service to all constituencies, both within and outside the University.
